Bonnell spring core mattress

Permanent spring action

- ◇ Bonnell spring core with 4-turn system. The springs are heat treated for long durability and spring action of the core.
207 springs (for mattress size 100/200cm), 2.2mm wire thickness
- ◇ Extra stability and soft spring action in the center zone by foam strips
- ◇ The spring core is covered with a low-wearing and breathable layer of sisal.
- ◇ High-quality molded foam cushions of low-flammability high-density polyether foam add to the life of the mattress
- ◇ Extra 10cm wide and strong foam strips for even more side stability and edge strength
- ◇ Breathable materials ensure best control of moisture and heat transfer and therefore provide a hygienic bed climate
- ◇ **Classification according to EU Marine Equipment Directive, Module B (MED-B) and U.S.Coast Guard**
- ◇ **Low flammability according to IMO FTP Code Part 9 (IMO Res.A. 688(17)).**
- ◇ Hard-wearing low-flammability Trevira CS jacquard drill cover quilted with polyester fibers
- ◇ Mattress total height approx. 20 cm
